Policies for candidate services such as counseling and advising:

In June 2006 the position of Freshman Advisor/Parent Liaison was established to help freshmen transition successfully to college life. This includes helping the freshmen students keep up with important dates, process information they need to know, locate available resources, and identify at risk students through a line of communication with faculty and staff.

Second semester freshmen and all other students are assigned to an advisor who will counsel the student on academic matters and will assist in preparing schedules and completing degree plans. Ultimately, though, it is the student’s responsibility to complete all requirements established for their degree.

The Billie Harty Counseling and Career Services Center (CCSC) is accessible to all students and offers a wealth of resources including personal and professional counseling, academic tutoring, writing assistance, standardized test preparation, career counseling and services, and a variety of special events to enhance personal growth. The CCSC is available during normal campus business hours with after-hour accessibility as deemed necessary. The CCSC director is a Licensed Professional Counselor, and the center is staffed with student work-study tutors. The director also provides state mandated training for child maltreatment to our student interns each semester.
